Downloading the Desktop Authenticator App

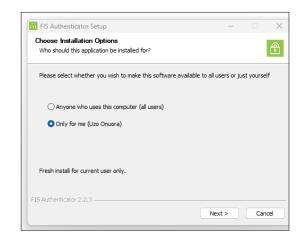

Go to this web page https://www.fisglobal.com/en/fis-authenticator/download

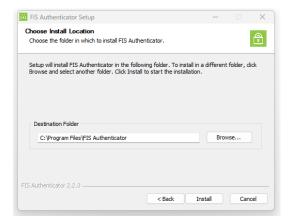

Version 2.2.3 Click on the green box with the arrow. Windows Installer Manage Cookie Preferences Click on the fisauthenticator 223...zip file. fisauthenticator223....zip Double click on the "Setup" file. > fisauthenticator223 (2) Compressed size Password ... Size Ratio Name Type Date modified FIS Authenticator Setup 2.2.3 Application 87,809 KB No 87,834 KB 1% 15/01/2021 12:56

Select "Only for me" and Next>

Then 'allow permission...."

Click "Install" and then "Finish".

The App will appear on your desktop.

This is all you can do for now, on the 8th August, you will need to do a quick set up.
